TTC Notice

Issued on:
November 17, 2026

Temporary Transit Priority Measures on Queen St. W. from Roncesvalles Ave. to Spadina Ave.

Timeline:
*Starting as early as **November 18, 2026**, City crews will begin installing signage for the temporary extended "No Stopping" prohibitions and turn restrictions on Queen Street West from Roncesvalles Avenue to Shaw Street.*

What's happening?

As early as **November 23, 2026**, the City of Toronto and TTC will resume infrastructure renewal work on King Street West between Dufferin Street and Close Avenue. This work includes City watermain replacement followed by joint City-TTC streetcar track renewal.

To accommodate this work, **504/304 King streetcars** will divert via Queen Street West between Shaw Street and Roncesvalles Avenue. With additional streetcars operating on Queen Street West during construction on King Street West, the City of Toronto is introducing **temporary** extended “No Stopping” prohibitions and turn restrictions between Roncesvalles Avenue and Spadina Avenue to help reduce congestion and keep transit and traffic moving.

Please note: These measures are temporary and will be removed when construction on King Street West is complete, and 504/304 King streetcars resume regular routing.

Transit priority measures details
