### What we are doing and why

Starting June 23, 2024, the TTC will be working along the Spadina Avenue streetcar right-of-way between Spadina Station and College Street and between King Street and Queens Quay. The TTC will conduct critical track renewal and enabling works for a future platform extension at Spadina Station. **510/310 Spadina** buses will replace streetcars.

### Spadina Avenue Overhead Wiring Upgrades

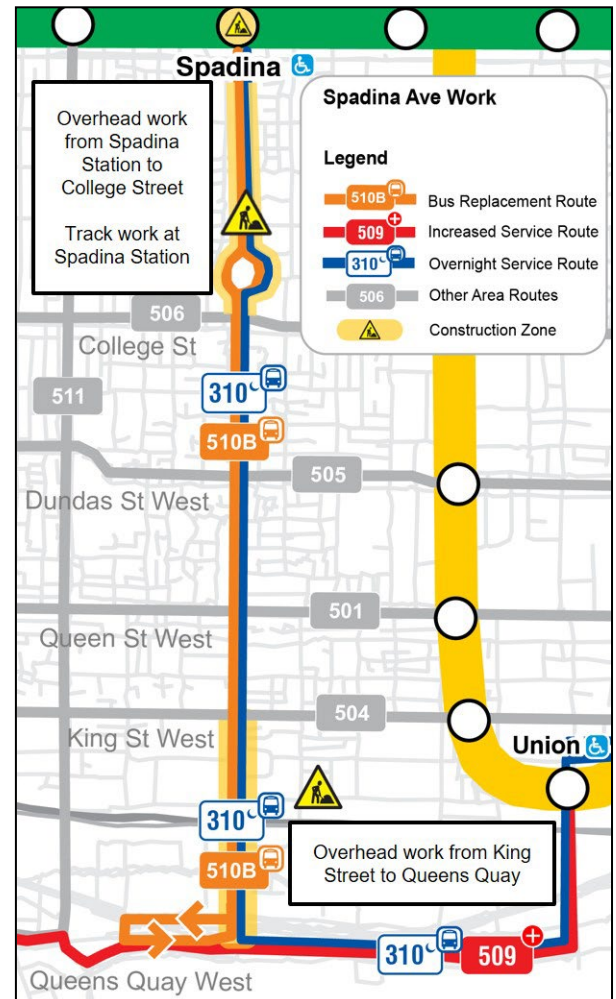

To complete this work safely and efficiently, TTC overhead crews may work throughout the week both day and night.

### TTC service – starting June 23, 2024

- **510 Spadina** streetcar service will be replaced by buses between Spadina Station and Queens Quay. Buses will operate on Spadina Avenue in mixed traffic and serve curbside transit stops.
- **310 Spadina** streetcar service will be replaced by buses between Spadina Station and Union Station. Buses will operate in mixed traffic and serve curbside transit stops.
- At Spadina Station, 510 Spadina buses will serve customers inside the bus loop (street level). 310 Spadina buses will serve customers on-street.
- **509 Harbourfront** streetcar service will be increased to provide frequent travel to/from Union Station.

### Bus operations on Spadina Avenue

- The City will be deploying traffic wardens to assist bus operations on Spadina Avenue.
- Narrow lane width and centre overhead poles in certain sections preclude bus service on the streetcar right-of-way.
- Overhead crews will be actively working in the right-of-way in different sections of Spadina Avenue.
- Operating in both the streetcar right-of-way and in mixed traffic lanes would require new signals and limit any travel time benefits.
