**MEETING DATE**: DECEMBER 15, 2004

SUBJECT: Chief General Managers Report Period 10 October 3 To October 30, 2004

### RECOMMENDATION

It is recommended that the Commission:

- (1) receive for information the attached Executive Summary of the Chief General Manager's (CGM's) report covering the period October 3 to October 30, 2004; and
- (2) forward a copy of this cover report and the Executive Summary to each City Councillor for information (noting that the detailed CGM's report is available on request from the Office of the General Secretary of the Commission).

#### **DISCUSSION**

## (1) <u>2004 TTC Operating Budget</u>

### Year-to-Date

<u>Ridership</u> in period 10 was 1.4 million (4.2%) over last year and 1.2 million (3.5%) over budget. Year-to-date, ridership to October 30 was 6.7 million (2.0%) rides over budget. Consequently, <u>revenue</u> to October 30 was \$15.4 million (2.8%) over budget. <u>Expenditure</u> results to date continued to reflect some timing differences from budget and a portion of the benefits of the additional goods & services tax ("GST") rebate.

# **Year-end Projections**

The continuation of the favourable <u>ridership</u> results now indicates that ridership should reach 418 million by the end of the year:

|            | 2004   |            |        |
|------------|--------|------------|--------|
| (Millions) | BUDGET | PROJECTION | CHANGE |
| RIDERSHIP  | 410    | 418        | 8      |
| REVENUES   | \$709  | \$725      | \$16   |
| EXPENSES   | \$933  | \$934      | \$1    |
| SUBSIDY    | \$224  | \$219      | \$(5)  |
| SURPLUS    | \$0    | \$10       | \$10   |

Projected year-end expenses for the advancement of the Ridership Growth Strategy implementation, maintenance, repairs, and increased property tax assessments are expected to only partially offset the favourable revenue variance. At this time, a year-end surplus of about \$10 million is projected. However, it should be further reiterated that the recommended strategy of charging the non-cash dental expenses to retained earnings at year-end has not been accepted by the Audit Committee, which referred the matter to the Mayor's Committee on Employee and Labour Relations, with a request that it recommend an alternative method of funding this expense. The Committee subsequently requested the City's Chief Financial Officer to report on the matter. The revised strategy will be reported as soon as it has been approved. In the meantime, the recent actuarial valuation determined that the dental expense in 2004 will be in the order of \$6.1 million.

In the absence of an alternative treatment, this expense would reduce the estimated surplus by \$6.1 million.

# (2) 2004 Wheel-Trans Operating Budget

Wheel-Trans continues to experience higher than targeted requests for service and has been able to provide some additional service by allocating a higher proportion of trips to sedan taxis.

A balanced budget and an unaccommodated rate of 2.4% (compared to a 2% target) are projected by year-end.

## (3) 2004 - 2008 Capital Program

The current projected year-end cash flow is \$2.2 million more than the budget of \$282.8 million approved by City Council on April 21, 2004, as outlined on page A6c. The \$2.2 million variance results from the overrun on the Sheppard Subway project of \$11.7 million. The current projections (\$285.0 million) reflect the additional 3/7ths GST rebate which became effective February 1, 2004.
