

TORONTO TRANSIT COMMISSION REPORT NO.

MEETING DATE: APRIL 27, 2009

SUBJECT: ELECTRICAL SAFETY AUTHORITY PRESENTATION
EMPLOYEE RECOGNITION

INFORMATION ITEM

RECOMMENDATION

At the April 27, 2009 Commission meeting, the Ontario Electrical Safety Authority (ESA) Judy Smith, ESA/CSS Field Facilitator and J.R. (Roy) Elwood, ESA Senior Electrical Inspector will recognize Mount Dennis Operator Evelyn Fuller and Wilson Route Supervisor Mike Grieco.

BACKGROUND

The ESA has a Continuous Safety Services (CSS) contract with the Toronto Transit Commission's Rail Operations Signals/Electrical/Communication Department. ESA contacted TTC for information on an incident where live electrical lines contacted by a third party came to rest on an in-service TTC bus. The incident occurred on January 5, 2009 at Eglinton and Bathurst. It was determined that the actions of the Operator and Supervisor in attendance prevented some very potentially serious consequences from occurring. The employees took the proper steps to ensure their own safety as well as the passengers who were involved. ESA wishes to formally recognize the employees.
