

TORONTO TRANSIT COMMISSION REPORT NO.

MEETING DATE: June 2, 2010

SUBJECT: FIRE VENTILATION UPGRADE PROJECT
SECOND EXIT
RELEASE CONFIDENTIAL CONCEPTUAL LAYOUTS
DONLANDS AND GREENWOOD STATIONS
CONTRACTS D6-3 AND D6-4

ACTION ITEM

RECOMMENDATION

It is recommended that the Commission authorize the public release of the second exit conceptual layouts for Donlands and Greenwood Stations as were set out in the Confidential Attachment to Commission Report No. 1(a) from the December 16, 2009 Commission Meeting, for the purpose of holding a public information session.

FUNDING

No impact to funding.

BACKGROUND

Conceptual layouts and property requirements for Donlands and Greenwood Stations Second Exits were presented in the Confidential Attachments to Commission Report No. 1(a), at the December 16, 2009 Commission Meeting.

The report recommended:

1. Approve the recommendations as set out in the Confidential Attachment; and
2. Authorize the public release of the confidential information and recommendations set out in the Confidential Attachment when the appropriate form of City authorization for the transaction is submitted for approval.

DISCUSSION

The initial plan was to hold the public information session after the City Council approval. However, through the ongoing discussions with City Staff on the property acquisition process, it was determined that holding the public information session before City Council

approval is a better approach in a number of ways. It would enhance the public consultation process throughout the project; encourage public participation and acceptance of the project and impact to their neighbourhood.

A meeting with the local Councillor was also held on March 22, 2010 to discuss the public consultation process. The Councillor supports conducting a public information session prior to City Council approval.

JUSTIFICATION

Release of the confidential information for the second exit conceptual layouts is required to conduct a public information session prior to the City Council approval.
