Toronto, Ontario,
M4S 1Z2

Dear Madame Chair:

I am interested in making a presentation on improving safety when loading passengers on our new streetcar fleet. This safety modification would be for the benefit of passengers, in mobility devices, using the ramp to access the streetcar as well as for those passengers using the other 3 sets of doors. These new Flexity Outlook vehicles will start replacing our current fleet of streetcars starting next year.

I was wondering if I could be added to the speakers' list of an upcoming meeting.

Sincerely,
Alan Yule
