

TORONTO TRANSIT COMMISSION REPORT NO.

MEETING DATE: November 18, 2013

SUBJECT: Surface Vehicle Automated Stop Announcement System

ACTION ITEM

REASON FOR CONFIDENTIAL INFORMATION:

The Report contains information that is subject to solicitor-client privilege and litigation or potential litigation

RECOMMENDATION

It is recommended that:

- (1) The Board approve the recommendation as set out in the Confidential Attachment; and
- (2) The information as set out in the Confidential Attachment remain confidential as it contains advice and communication that is subject to solicitor-client privilege.

BACKGROUND

In 2007, the Ontario Human Rights Tribunal issued an Order requiring the TTC to announce all surface stops (a previous Order was issued in 2005 with respect to stop announcements for Subway). TTC currently uses a Surface Vehicle Automated Stop Announcement System in order to ensure that stops are properly being announced. TTC buses and streetcars were all retrofitted with equipment in order to allow for the automated announcements. On-going maintenance, uploads and downloads are provided by a third party vendor.
