### RE: YORK UNIVERSITY SUBWAY STATION CONSTRUCTION

Dear Mr. Byford:

I attended York University yesterday where I viewed the new subway station construction and saw no workers on site. The station is half flooded and it is my understanding that no workers have been on site for the past several months.

I would like to know why this station has been abandoned. I would also like to know how this will impact subway construction deadlines and I would also like to know how this will impact the overall cost of the subway line.

As you can appreciate, construction activity causes disruptions at the best of times resulting in detours and road closures. These disruptions are compounded when delays like these occur over longer periods of time.

Please let me know what needs to be done and when subway construction will resume at the York University subway station.

Yours truly,

Anthony Perruzza  
City of Toronto Councillor

CC: Karen Stinz, TTC Chair  
CC: TTC Commissioners
