Toronto, Ontario,

M4S 1Z2

Dear Madame Chair:

I am interested in making a presentation on "Future Proofing" our way finding system. The TTC is a multimodal system that will be undergoing significant expansion in the next 10 to 30 years. It is important to have a way finding system that is both cost effective, as well as logical, and that can easily be expanded as our needs change.

I was wondering if I could be added to the speakers' list of an upcoming meeting.

PRESENTED TO
THE COMMISSION

Sincerely,

FEB 24 2014

Alan Yule
