To: Toronto Transit Commission

Re: Elimination of Streetcar Stops

I received a letter from Mr. Carr regarding elimination of some streetcar stops in Ward 30 and have now also received today's report to the Commission

I understand that the Commission is reviewing a number of stops before removal and would like to ask the Commission to add these additional stops to that list.

I am concerned with the proposed removal of an important mid-block stop for 501 Queen at S/S Caroline and N/S Brooklyn in Leslieville and note there has not been a conversation with the BIA on this matter.

As well I would note that there is a crosswalk on Broadview near the Mount Stephen stops which has been one of your criteria in maintaining TTC stops.

Therefore I would ask the Commission to:

- 1) Refer the removal of the 501 Queen stops at Caroline and Brooklyn to TTC staff in order to consult with the City's BIA office and the Leslieville BIA
- 2) Refer the removal of the Broadview/Mount Stephens stops for the 504 and 505 cars back to TTC staff to reconsider the elimination of these stops in conjunction with the TTC's transit stops and crosswalk policy

Sincerely,

*Paula Fletcher*
