

At its meeting of July 29, 2015, the Board took the following action:

1. That Recommendation No. 1 in the staff reported be deleted and replaced with the following:  
  
“That the TTC recognize the importance of TIFF to Toronto’s economy and international reputation and support the requested closure of King Street West, between University Avenue and Spadina Avenue”; and
2. That the Board adopt Recommendations No. 2 and 3 in the staff report.
3. That the TTC request city staff and TIFF to consider closing a different combination of streets in 2016 that would still have a positive impact for the Festival, the local businesses and our TTC customers, but would not involve the closure of King Street West”.
