Decision: Gap Between Subway Trains and Platforms

At its meeting of April 20, 2017, the Board approved:

That the TTC Board:

1. Endorse an interim platform gap retrofit standard of 89 mm horizontal and 38 mm vertical along a minimum of 90% of each platform on an interim basis until the final study is complete.
2. Authorize staff to commence basic corrective work to meet the interim retrofit gap standard to address horizontal and vertical gaps at key platform edges in co-ordination with Wheel-Trans Family of Services priorities; and
3. Direct staff to report back to the Board in 2019 on the findings of the study and a proposed gap retrofit program.
