

Notice of Motion

Keeping the 505 Dundas Moving Through Chinatown: Support for Temporary Adjustments to Parking Regulations on Dundas Street West

Moved by: Commissioner Dianne Saxe

Seconded by: Commissioner Julie Osborne

Summary

From June to late 2024, there will be a bus replacement of the 510 Spadina streetcar for overhead upgrades along Spadina Avenue and construction at the streetcar loop at Spadina Station. In order to best support customers during construction, the TTC wishes to enhance alternate routes for customer movement to and through the Chinatown neighbourhood. One key alternate route is the 505 Dundas streetcar. Unfortunately, this streetcar is frequently delayed by acute traffic congestion between Spadina Avenue and McCaul Street. To improve timeliness and reliability of the 505 Dundas streetcar service through Chinatown during the 510 Spadina closure, at its meeting on May 7, 2024, the Toronto and East York Community Council considered item [TE13.42 - Keeping Dundas Street Streetcar Moving Through Chinatown: Temporary Adjustments to Parking Regulations on Dundas Street West](#) and adopted the following:

That the Toronto and East York Community Council:

- 1. Forward the Item to City Council without recommendation.*
- 2. Request the General Manager, Transportation Services to report directly to the May 22, 2024 meeting of City Council on recommended temporary parking, loading and traffic amendments on Dundas Street West that would support timely and reliable streetcar service on Dundas Street West between Spadina Avenue and McCaul Street during construction at Spadina Station.*

This motion seeks TTC Board support of temporary parking, loading and traffic amendments on Dundas Street West, as may be recommended to City Council by the General Manager, Transportation Services.

Recommendation

That the TTC Board:

1. Support TE13.42 and any resultant temporary parking, loading and traffic amendments on Dundas Street West that support streetcar service on Dundas Street West between Spadina Avenue and McCaul Street during construction at Spadina Station.

Date: May 13, 2024
