Financial Statements of

**TTC INSURANCE COMPANY LIMITED**

Year ended December 31, 2013

February 20, 2014

## **Independent Auditor's Report**

### **To the Board of Directors and Shareholders of TTC Insurance Company Limited**

We have audited the accompanying financial statements of TTC Insurance Company Limited, which comprise the statement of financial position as at December 31, 2013 and the statements of operations and accumulated surplus and cash flows for the year then ended, and the related notes, which comprise a summary of significant accounting policies and other explanatory information.

#### **Management's responsibility for the financial statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# TTC INSURANCE COMPANY LIMITED

Notes to Financial Statements, page 1

Year ended December 31, 2013

---

## 1. NATURE OF OPERATIONS

TTC Insurance Company Limited (the "Company") was incorporated on March 9, 1994 under the Ontario Corporations Act and is a subsidiary of Toronto Coach Terminal Inc. ("TCTI"), with its ultimate parent company being the Toronto Transit Commission (the "TTC"). The TTC is one of the agencies, boards and commissions of the City of Toronto (the "City").

The Company provides insurance coverage for compulsory automobile personal injury and accident benefit claims for the TTC.

## 2. SIGNIFICANT ACCOUNTING POLICIES

### (a) Basis of Presentation

These financial statements are prepared in accordance with the Public Sector Accounting Handbook. In 2011, the Company elected to early adopt PS 3450 Financial Instruments. In accordance with PS 1150 Generally Accepted Accounting Principles, and in the absence of specific guidance under PSAS, the guidance from IFRS 4, Insurance Contracts, was used for the measurement and presentation of insurance liabilities.

The Company follows the recommendations of Section PS 1201 - Financial Statement Presentation. Financial statement presentation for assets and liabilities is based on the concept of net debt. A Statement of Change in Net Debt has not been presented as the Company does not have any non-financial assets and does not generate a surplus or deficit. Therefore, the presentation of a Statement of Change in Net Debt would not provide any information that could not be obtained from the Statement of Financial Position or the Statement of Operations and Accumulated Surplus. Since the Company holds all investments in the form of cash and cash equivalents, a Statement of Remeasurement Gains and Losses has not been presented.

### (b) Measurement Uncertainty

Insurance liabilities are subject to measurement uncertainty. The recognized amounts of such items are based on the Company's best information and judgment. Estimates and other judgments are continuously evaluated based on management's experience and expectations about future events. Any variation in the ultimate insurance liability incurred will be offset by a corresponding change in the indemnity receivable and recognized in the current period.

### (c) Cash and Cash Equivalents

Cash and Cash equivalents consist of funds on deposit with a chartered bank or money market instruments, such as treasury bills and bankers' acceptances, which are readily convertible to cash on short notice.

### (d) Insurance Contracts

Insurance contracts are those contracts that transfer significant insurance risk at the inception of the contract. Insurance risk arises when the Company agrees to compensate a policyholder if a specified uncertain future event adversely affects the policyholder. Significant risk is defined as the possibility of having to pay significantly more in a scenario where the insured event occurs than when it does not occur. Due to the indemnity agreement received from the TTC (see note 3), the contract issued by the Company does not in substance transfer any insurance risk. Accordingly, the contract is recorded on the Statement of Financial Position and not reflected on the Statement of Operations and Accumulated Surplus.

---

## TTC INSURANCE COMPANY LIMITED

Notes to Financial Statements, page 2

Year ended December 31, 2013

---

(e) **Insurance Liabilities**

Insurance liabilities reflect an actuarial assessment of the automobile claims liability on the basis mandated by the Financial Services Commission of Ontario. When a claim is reported, a case reserve is established by adjusters and lawyers employed by the TTC. The liability includes an actuarially estimated provision for claims incurred but not yet reported and internal and external adjustment expenses. Claims provisions are first discounted to reflect the time value of money and provisions for adverse deviations are added in accordance with accepted actuarial practice and the requirements of the Financial Services Commission of Ontario.

(f) **Revenue Recognition**

Interest earned from funds on deposit is recorded as interest income on an accrual basis.

(g) **Income Taxes**

Pursuant to section 149(1)(d) of the Income Tax Act (Canada), the Company is exempt from federal income tax. As a result, no tax provision has been recorded in these financial statements.

### 3. LICENSE AND INDEMNITY RECEIVABLE

The Company received a license on July 12, 1994 from the Ontario Insurance Commission, now incorporated into the Financial Services Commission of Ontario, in order to transact the business of automobile insurance in the Province of Ontario. The Company initiated such transactions on July 30, 1994. By Provincial Order in Council dated July 6, 1994, the Company was granted the said license subject to the following conditions:

- (a) the Company maintain, in aggregate, a paid-up capital and unimpaired surplus of not less than \$100,000;
- (b) the Company limit exclusively its underwriting to the automobile insurance risks of the TTC under the Compulsory Automobile Insurance Act or any successor thereto;
- (c) the indemnity agreement between the TTC and the Company, whereby the Company is to be reimbursed by the TTC for all current and future costs and expenditures including all claims under the policies, continue and be in full force and effect; and
- (d) the complete and full guarantee of the TTC's liabilities and obligations under the indemnity agreement which the Company has received from the City remains in full force and effect.

As a result of the indemnity agreement and the City guarantee, the Company has negligible insurance risk, as any change in the Company's insurance liabilities would be offset by a corresponding change in the balance of the indemnity receivable. For this reason, disclosures on specific insurance risks have not been made.

Notes to Financial Statements, page 3

Year ended December 31, 2013

---

### 4. CASH AND CASH EQUIVALENTS

Pursuant to the guarantee agreement with the City described in note 3(d), the Company is required to maintain cash or securities available for payment of current liabilities equal to the greater of \$350,000 or one month's claims and operating expenses (all self-insured retention payments are processed through the TTC). The cash and cash equivalents amount restricted for this purpose is \$3,400,000 (2012 - \$3,000,000).

### 5. INSURANCE LIABILITIES

Insurance liabilities are established to reflect all liabilities associated with the insurance policies at the balance sheet date. The ultimate cost of these liabilities will vary from the best estimate made by management for a variety of reasons, including additional information with respect to the facts and circumstances of the claims incurred.

#### Case Reserves

Insurance liabilities are based on the case reserves set by claims adjusters for each individual claim. These specialists apply their knowledge and expertise, after taking available information regarding the circumstances of the claim into account, to set individual case reserve estimates. The Company bases such estimates on the facts available at the time the reserves are established.

#### Incurred But Not Reported

An incurred but not reported provision "IBNR" is then added to the case reserves as uncertainty exists on reported claims, because, for example, full information on case files may not be available at the valuation date, or losses have been incurred but are not yet reported. Therefore, the Company relies upon historical information and statistic models, to estimate the IBNR liability. The Company also uses reported claims trends, claims severity, exposure growth and other factors in estimating its IBNR reserve. The time required to learn of and settle claims is an important consideration in establishing the Company's reserves. The Company revises these reserves as additional information becomes available.

#### Time Value of Money and Provision for Adverse Deviation

The provision is discounted to take into account the time value of money and a provision for adverse deviation "PFAD" is added, as recommended by standard actuarial practice. Assumptions regarding the anticipated timing of future payments and an appropriate discount rate are made by management. As uncertainty exists with respect to the determination of these discounted estimates, an explicit PFAD is made for potential claims development. A PFAD is selected based on guidance developed by the Canadian Institute of Actuaries.

## TTC INSURANCE COMPANY LIMITED

Notes to Financial Statements, page 4

Year ended December 31, 2013

The following table summarizes the effects of the time value of money and PFADs on the insurance liabilities and claims adjustment costs.

Unpaid claims and adjustment costs (\$000s):	Undiscounted	Time Value of Money	Discounted (before PFAD)	PFAD	Discounted
As at December 31, 2013	139,192	(10,363)	128,829	12,633	141,462
As at December 31, 2012	149,825	(8,894)	140,931	13,815	154,746

As at December 31, 2013, the interest rate used to determine the time value of money was 2.33% (December 31 2012 – 1.95%) and reflected the market yield.

### Measurement Uncertainty and Assumption Sensitivity

Significant measurement uncertainty exists with respect to the undiscounted and discounted balances as a significant number of assumptions are necessary to determine such estimates as described above. Final claim payments may differ from the computed provisions, particularly when payments may not occur for several years. Any such adjustments to the provision will be reflected in the results for the year during which the adjustments are made.

Given the diversity and number of the assumptions involved, quantifying the individual assumptions that are more likely than others to have a significant impact on the measurement of the Company's insurance liabilities is impractical.

### Claims Development

The Company completes an annual evaluation of the adequacy of unpaid claims and claims adjustment costs at the end of each financial year. This evaluation includes a re-estimation of the liability for unpaid claims and claims adjustment costs relating to each preceding financial year compared to the liability that was originally established. The results of this comparison and the changes in the unpaid claims and claims adjustment costs for the years ended December 31, 2013 and 2012 were as follows:

	2013	2012
Insurance liabilities, beginning of year	154,746,000	144,772,000
<b>Net claims and claims adjustment costs</b>		
Incurred related to current year	36,944,000	37,848,000
Incurred related to prior years	(18,771,000)	(6,324,000)
Settled related to current year	(1,996,000)	(2,164,000)
Settled related to prior years	(29,461,000)	(19,386,000)
<b>Insurance liabilities, end of year</b>	<b>141,462,000</b>	<b>154,746,000</b>

Based on the indemnity agreement described in note 3(c), there is no net impact on the Company as a result of the claims development as any adverse claims development, would be offset by an increase in the indemnity receivable. As a result, a claims development table is not presented in these financial statements.

## **TTC INSURANCE COMPANY LIMITED**

Notes to Financial Statements, page 5

Year ended December 31, 2013

---

### **6. FINANCIAL INSTRUMENTS**

The major financial instruments held by the Company are an indemnity receivable from the TTC and an advance from TCTI. The indemnity receivable from the TTC corresponds with the insurance liabilities. This receivable arose from the indemnity agreement described in note 3(c). The payment of this receivable by the TTC is also covered by a separate guarantee agreement issued by the City. The Company considers the carrying value of the indemnity receivable and the amortized cost of the advance from TCTI to be approximately equivalent to their fair value. The maturity of the Indemnity Receivable from the TTC is directly linked to the maturity of Company's insurance liabilities, resulting in the Company having negligible liquidity and interest risk. The Company has low credit risk due to the guarantee agreement between the City and the Company and does not face market risk, or currency risk.

All other financial assets and liabilities such as cash and cash equivalents, interest receivable and accounts payable are short-term in nature and the carrying values of these financial instruments approximate their fair value. The credit risk on cash and cash equivalents is considered negligible as it is readily convertible to cash on short notice.

### **7. ADVANCE FROM TORONTO COACH TERMINAL INC.**

The advance from TCTI is measured at cost and is due on demand, unsecured and non-interest bearing.

### **8. ACCUMULATED SURPLUS**

The accumulated surplus consists of 1,000 common shares with a par value of \$100 each.

### **9. RETENTION LEVELS**

The Company's retention levels are the minimum limits of insurance, as required by the various municipal, provincial and federal statutes, and are fully recoverable from the TTC. The TTC has purchased excess insurance to cover claims in excess of \$5,000,000, excluding no-fault claims.

### **10. RELATED PARTY TRANSACTIONS**

The TTC provides all management and administrative services necessary to support the operations of the Company. Related party transactions are recorded at the exchange amount. The expense incurred for the year for these services was \$38,960 (2012 - \$38,126) and this has been reflected in the statement of operations and accumulated surplus.

In addition, TCTI advanced an additional \$400,000 to the Company during the year, bringing the total advance to \$3,300,000 (2012 - \$2,900,000), as described in note 7.

## **TTC INSURANCE COMPANY LIMITED**

Notes to Financial Statements, page 6

Year ended December 31, 2013

---

### **11. CONTINGENCIES**

The Company is a party to a number of legal proceedings in the ordinary course of its business. While there exists an inherent difficulty in predicting the outcome of such matters, based on current knowledge and consultation with legal counsel, management does not expect that the outcome of any of these matters, individually or in aggregate, would have a material adverse impact on the Company's financial position. In management's opinion, the Company has made adequate provision for all claims and legal proceedings.
